Congratulations and welcome incoming MSPA & MPH students! The Student Health Center must receive clear and legible health documents **30 days after the date of your acceptance letter date**. This one page checklist summarizes the health requirements of the Physician’s Assistants Program (PA) for your convenience. More information and helpful tips can are available at the student health website for Entering Students at [http://studentservices.tu.edu/studenthealth/forms.html](http://studentservices.tu.edu/studenthealth/forms.html). The following documents are required and cannot be waived, (childhood vaccinations are strongly recommended):

1. **Health Forms: Required 30 days after your acceptance letter**
   - Form A - Student Information
   - Form B - Health History – Page 1 of PE reviewed by your primary care provider (PCP)
   - Form C - Physical Examination – Completed and signed by your PCP
   - Form D - TB Screen, Symptom Survey, page 1 and 2 step PPD page 2-See TB Clearance documentation below
   - Form F - Authorization for Release of Communicable Disease Clearance Information to Clinical Rotation

2. **Positive Quantitative (numerical) Lab titers obtained within the last 5 years.** Copies of the following lab titers must be on lab letterhead from the lab performing the test and collected within the last 5 years. For any negative or equivocal titers, send your results and documentation that you have restarted the vaccination series. A titer must be drawn 30 days after you complete the vaccination series.
   - Positive Quantitative Hepatitis B surface Antibody Titer – CPT code 86317
   - Positive Quantitative Measles (Rubeola) Antibody Titer – CPT code 86765
   - Positive Quantitative Mumps Antibody Titer – CPT 86735
   - Positive Quantitative Rubella Antibody Titer – CPT 86762
   - Positive Quantitative Varicella Antibody Titer - CPT 86787

3. **TB Clearance documentation**
   - Form D –Initial TB Screen, Symptom Survey & 2 step PPD signed by your PCP and completed between June 1st and June 25. The 2 Step PPD consist of two separate PPD’s placements and readings in the following procedure:
     - **Step 1:** PPD1 is placed on day one and read within **48-72 hours** and documented in **mm of induration**.
     - **Step 2:** PPD 2 is placed **7-18 days after Step 1 PPD is placed** and read within 48 to 72 hours in **mm of induration**. Both PPDs must be completed within 21 days. Option 2 is two PPDs placed and read within the past year.
     - If you had the **BCG** vaccination without a subsequent positive PPD, you are to obtain a two-step PPD. If either PPD is positive, obtain a current chest x-ray obtained within the last and any documentation that you have started treatment for latent TB.
     - If you had a positive PPD in the past, submit a negative chest x-ray report obtained within the past 6 months of matriculation or a quantiFERON Gold test, documentation of initial negative chest x-ray after conversion to a positive PPD and documentation of treatment for latent TB.

4. **Immunizations:**
   - Required - Tdap Vaccination (tetanus, diphtheria & acellular pertussis) obtained within the past 10 years.
   - Preferred – MMR (2 vaccinations), Hepatitis B Series, Varicella Vaccination
   - Recommended – Hepatitis A Series, Meningococcal Vaccination, Flu Vaccination

Please call or email the Student Health Center with any questions. You will find more information about the health requirements of the Joint MSPA and MPH program at the Student Health Services website [http://studentservices.tu.edu/studenthealth/forms.html](http://studentservices.tu.edu/studenthealth/forms.html)

Please drop off, mail or email clear copies of your documents to:
Touro University California, Student Health Center
1310 Club Drive, Wilderman Hall Room 114, Vallejo, CA 94592 Ph. 707-638-5220
Email: tuc.studenthealth@tu.edu
